The Civil Service Reformers

any their object is simply to retain good men in office when you find them. This theory may be safely applied to the treatment of the human system by means of medicine. Those who have once tried Dr. Pierce's "Golden Medical Discovery" for scrofulous swellings and sores, loss of flesh and appetite, weak lungs, splitting of blood, and consumption, will apply to the real principle of Civil Service Reform and "hold fast to that which is good."

Pool: Dudley, son of Lucian Pool, of Bainbridge, died Saturday night of pneumonia and measles. He was eight years of age. The body was brought here Sunday for interment.

Mr. N. L. Osborne, a merchant of Bonnettstown, accidentally shot himself last Wednesday evening and died in a few minutes from the effects of the wound. He was in the back room of his store, trying to twist a load out of one of the barrels of a double-barreled gun, when the gun was discharged, the load entering the bowels and ranging upwards. No one was present at the time. He lived long enough to tell that it was an accident, and to ask Dr. Collins, who was called at once, if he thought the wound would prove fatal. He was a man of family, leaving a wife and several children. His life was insured for \$5,000.

Excitement in Texas. Great excitement has been caused in the vicinity of Paris, Tex., by the remarkable recovery of Mr. J. E. Corley, who was so helpless he could not turn in bed, or raise his head; everybody said he was dying of consumption. A trial bottle of Dr. King's New Discovery was sent him. Finding relief, he bought a large bottle, and a box of Dr. King's New Life Pills; by the time he had taken two boxes of Pills and two bottles of the Discovery, he was well and had gained in flesh thirty-six pounds. Trial bottles of this Great Discovery for Consumption free at H. B. Garro's.

Our New Presses.

We have just disposed of our old-time Jobbers and supplied our office with two brand new Challenge Presses, 7x11 and 13x19, made by the Shinde-dewand & Lee Co., of Chicago.

"CHALLENGE"

We are determined to keep up the progress made in our line of business, and hence the purchase of presses that stand at the head of the market. We examined the different makes of presses, and were some time in making a selection, but when the many advantages of the Challenge were made known to us, we felt assured we could derive more benefit from this style of press than from any other. The Challenge press is an improvement on the old style Gordon, but is stronger built. One great fault with presses heretofore sold is that they were not built strong enough in the bed and platen to prevent distorting, thereby causing a job to print on all four corners, but would not show up in the center. In the Challenge this difficulty has been overcome, and forms that fill the class can be printed with as much ease as a small card, without injury to the press. The presses are made with patent throw-off, thereby saving spilage of printing; spring chase hook, which is instantaneous and saves much time; patent depressible grippers, that hold the paper securely, thereby preventing a blur. Last, but not least, is the fountain to this press, which stands without an equal, and which will save enough in time to pay for the press in 5 years. It is so constructed as to receive pretty much the same feed of ink as a cylinder press, the flow of which can be regulated in an instant. Messrs. Shinde-dewand & Lee Co., are to be congratulated on the success the Challenge presses have met with, and all that is wanted to effect a sale is to see them in operation. To those of our fellow craftsmen who are in need of presses, we would say, do not buy until you examine the many excellent points of the Challenge. Any information in regard to these presses will be cheerfully given by addressing the above named firm.

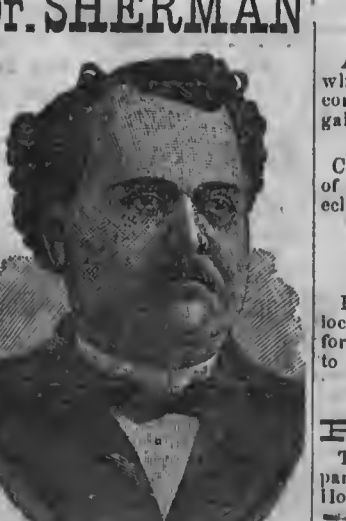

Mr. J. M. Cayce has sold his place near Edwards' Mill to Mr. W. A. Lowry for \$10,000 cash. The place was improved by Mr. W. W. Garrott and has first-class improvements all new, including a new brick house with ten rooms. The farm contains 250 acres and adjoins another tract recently purchased by Mr. Lowry.

A Chance for Health.

It is asserted that fast sinking into a condition of hopeless debility. The means are at hand. In the form of a genial medicinal cordial, Hunter's Stomach Bitters enables the emaciated and debilitated to restore, and in an alternative. While it promotes digestion and assimilation, and stimulates the system, it has the further effect of purifying the blood, and strengthening the nervous system. As the blood grows richer and purer by its use, they who resort to this sterling medicinal agent, acquire not only vigor, but the current and strengthening the nervous system. A faithful change in the complexion is effected by it, and that aura and rapid physical decay, which a chronic obstruction of the functions of the system produce, is arrested. The prime cause of disease being removed, health is speedily renovated and vigor restored.
